

# GRADUATE RESEARCH ASSISTANTSHIP and GLUNT FELLOWSHIP

## Residential Building Construction

A research assistantship is available for highly motivated M.S. or Ph.D. students interested in residential structures. The assistantship will cover tuition, fees, health insurance and graduate salary. The Glunt Fellowship was endowed in honor of Roger Glunt, past President of the National Association of Home Builders. The Glunt Fellowship will provide additional financial resources to cover travel, research and educational expenses. The research topics will include, but are not limited to, behavior, design, and construction of residential structures, performance of building envelope systems, and best management practices (BMP's) for stormwater management.

The successful applicant should have a Bachelor's degree in Architectural or Civil and Environmental Engineering or related disciplines. For more information on this research opportunity please contact Dr. Andrew Scanlon, Bernard and Henrietta Hankin Chair in the Department of Civil and Environmental Engineering, 220 Sackett Building, Penn State University, University Park, PA 16802-1408, ph. 814-867-0151, [a1sce@engr.psu.edu](mailto:a1sce@engr.psu.edu).
