The Application deadlines (as established by Regulation) are December 1st to be considered for the April exam and July 1st to be considered for the October exam; there are NO exceptions.

** A postmark is defined as the official mark that the United States Postal Service uses to cancel your postage. Postage meter dates from businesses are not considered a postmark. Courier service packages must clearly indicate the date sent. **

The fee for the NCEES FS examination is a separate fee from the Board application fee. You will pay this fee directly to the Professional Credential Services (PCS) when you send them the scheduling form for the examination.

You will only receive a PCS examination scheduling form once you have received the Board’s approval to sit for the FS Examination.

The fee for the FS examination is NOT refundable or transferrable to another examination administration. You should NOT pay the fee for your examination unless you have received an approval letter and your scheduling form from the Board.

NCEES Registration Information: You will indicate your Pennsylvania exam site preference and afternoon module during NCEES registration. The NCEES registration usually opens after the Board’s application deadline. The NCEES registration deadline is different from the Board’s Application deadline AND is different from the scheduling process with PCS.

It is your responsibility to register with the NCEES online at www.ncees.org prior to the NCEES registration deadline, as posted on www.ncees.org.

The NCEES Registration deadline for the NCEES examinations is established, and strictly enforced, solely by the NCEES. There are NO EXCEPTIONS. The Board has no statutory or regulatory authority to request or require the NCEES to waive or extend their registration/scheduling deadline FOR ANY REASON.

Amplified Record AND Detailed Breakdown of Surveying Work Experience Requirements

To assist the Board with providing the most appropriate evaluation of your surveying work experience, you must submit an “Amplified Record of Work Experience” form (amplified record), which has been **completed in its entirety** (names, addresses, complete dates-not “to present” etc…).

The amplified record should clearly describe the progressive land surveying work that you personally performed; delineate your role in any group land surveying activity; provide an overall description of the nature of work you personally performed (including detailed descriptions of your use of the principles of land surveying) and specifically indicate how your land surveying skills and responsibilities have increased during your years of experience.

Your amplified record must demonstrate conclusively the six (6) or more years of progressive experience you have obtained in land surveying work, knowledge, and skill deemed equivalent, in accordance with Board regulation, to graduation from an approved curriculum in land surveying or civil engineering. For experience to be acceptable to the Board, an applicant shall show diversification of field and office experience with a minimum of 25% of the experience in each area.

Please note that **the only work experience considered during any application review** is the experience information provided on the amplified record form and the Detailed Breakdown of Surveying Experience forms. Additionally, please note that you should provide no more than **one year of work experience per page** of the amplified record; however, you may use as many pages as necessary to accurately describe each year of experience.

Once the Board office has received a complete amplified record of the progressive engineering work experience you have obtained, continued review of your application can be given.
